

BEAUTIFUL BASTION POINT, MALLACOOTA

This jewel of Victoria's wilderness coast will become buried treasure if a 130 metre breakwater and road on the beach is allowed to go ahead.

The cost continues to blow out while the economic benefits have been grossly exaggerated – a money pit for Victorian taxpayers.

Political positions on the Bastion Point overdevelopment

Labor - has so far put politics before the community and environment by supporting and funding the project.

Liberal/ National Coalition - would review the project as part of the necessary consents and approvals processes.

Greens - support Save Bastion Point Campaign to stop this devastating development and adopt a community-based alternative.

You can help stop this waste of public money and save Victoria's premier coastal wilderness destination.

YOUR VOTE CAN MAKE A DIFFERENCE

Support Victoria's coastline and the rights of communities to fair and transparent planning decisions
